

MUHAMMAD ABDULLAH

Junior AI & MLOps Engineer

📍 I-14, Islamabad | 📞 +92-305-5951095 | ✉️ abdullahriaz0753@gmail.com | [in linkedin.com/in/abdullahriaz786](https://www.linkedin.com/in/abdullahriaz786) | 🌐 [AbdullahcodeX](#)

PROFESSIONAL SUMMARY

Information Technology graduate passionate about building intelligent, AI-driven systems through machine learning, computer vision, and data-centric development. Experienced in developing scalable applications with a strong focus on automation, data pipelines, and problem-solving. Actively exploring opportunities that blend AI, DevOps, and full-stack development, and scalable deployment.

TECHNICAL SKILLS

Programming: Python, OOP, SQL
Web Development: Angular, ASP.NET Core (.NET), REST APIs, CRUD Applications, SQL Server, MVC
Databases: PostgreSQL, SQL Server
AI/ML Frameworks: PyTorch, TensorFlow, Keras, Scikit-learn, OpenCV, YOLOv9, Hugging Face Transformers, OpenAI API, CNNs, Deep Learning, Fine-tuning
Vector Databases Search: RAG (Retrieval-Augmented Generation),Pinecone
DevOps & Deployment: AWS Cloud Services (EC2, S3, ECS, ECR CloudFront),CI/CD Automation with Jenkins, Terraform(IaaS),nux Bash Scripting, Git, GitGitHub Actions,Docker

EXPERIENCE

Machine Learning Intern | Namal University Mianwali Oct 2025 – Dec 2025
– Worked on computer vision algorithms using OpenCV, YOLO, and PyTorch for face detection and recognition tasks.
– Collaborated with team to optimize models for deployment and improve detection accuracy.

DevOps Intern | NASTP Lahore Jan 2026 – Mar 2026
– Intensive training in ML/Deep Learning, Full Stack Development, and DevOps with hands-on AWS projects (S3, CloudFront, Route 53, EC2,Jenkins automation, Git integration and CI/CD Pipelines,Terraform,ECR,ECS and Github action.

Web Development Intern | NEXUS BERRY Sep 2024 – Oct 2024
– Developed full-stack web applications using Angular and ASP.NET/.NET, building responsive frontends and back-end APIs.
– Implemented CRUD operations, integrated SQL databases and REST APIs, and contributed to e-commerce application development.

PROJECTS

RAG AI Assistant – AI-Powered Document Intelligence Platform | *Python, FastAPI, Angular, OpenAI API, Supabase, PostgreSQL*
– Engineered a production-ready RAG platform for context-aware PDF chat using OpenAI LLMs
– Designed a document ingestion pipeline with PDF parsing, semantic chunking, OpenAI embeddings, and pgvector-based retrieval
– Developed scalable FastAPI backend services for authentication, document processing, chat management, SSE streaming, and REST APIs

Full-Stack E-Commerce Platform | *Angular, ASP.NET Core Web API, SQL Server, Entity Framework Core*
– Developed a full-stack e-commerce platform using Angular and ASP.NET Core Web API with a responsive user interface.
– Implemented product catalog, shopping cart, user authentication, order management, and CRUD operations.
– Integrated SQL Server with Entity Framework Core and RESTful APIs for secure and efficient data management.

LLM Fine Tunning – Domain-Specific AI Assistant | *Llama 3, Hugging Face,PyTorch, FastAPI*
– Fine-tuned a Llama 3 model using for domain-specific conversational tasks.
– Developed an end-to-end Hugging Face pipeline for preprocessing, training, evaluation, and inference.
– Served the fine-tuned model through FastAPI for scalable, low-latency inference.

EDUCATION

University of Mianwali	BS in Information Technology CGPA: 3.05	<i>Jan 2020 – Aug 2024</i>
------------------------	--	----------------------------

AWARDS AND CERTIFICATIONS

– AI and High Performance Computing — Namal University Mianwali	2025
– Amal Career-Prep Fellowship — Stanford University & Pepsico Pvt. Ltd.	2023
– Web Development Internship — NEXUS BERRY	2024
